Sludge Receiver EX

Sludge Receiver EX is a complete system for separation of debris & rubbish from sludge & water.
Sludge trucks can connect directly to the tank.

Using a Cross Screen XS keeps the sludge concentrated with
no need for flush water.

Sludge Receiver EX can consist of:
Inlet tank with air evacuation.
Stone trap with spiral conveyor.
Cross Screen XS step type fine screen 3-6mm.
Wash Press TP.
Shredder MT.

Capacity sludge 1-10m³/min
Capacity water 10-300l/s

MN has hundreds of international references and has
worked with machinery within water treatment for 30 years.
We offer the most innovative solutions and the most extensive
knowledge on screening equipment.
We make all our products ourselves acc to ISO & CE standards.
We only use certified materials and welders.
