## Wash Screw WP

Wash Screw WP is a combined pulling conveyor and wash press for screenings and wet waste.

The material is conveyed to the wash press zone where a resistance gives retention time for washing and compaction. The material is partly shredded during discharge.

Length 1000-10000mm  
Diameter 200-400mm  
Inlet length 500-3000mm  
Angle 0-90gr  
Dryness 30-40%  
Capacity 0.5-4m<sup>3</sup>/h

MN has hundreds of international references and has worked with machinery within water treatment for 30 years. We offer the most innovative solutions and the most extensive knowledge on screening equipment. We make all our products ourselves acc to ISO & CE standards. We only use certified materials and welders.
